

## **Subject: Motivation for Pursuing Master's in International Relations**

To the Admission Committee,

I am writing to express my keen interest in the Master's program in International Relations at your esteemed university. Having worked on the front lines of community development at **Laksam Nobarun Business & NGO** since 2023, I have witnessed firsthand how global economic shifts and diplomatic decisions impact local communities.

My professional journey is a blend of social service and technical adaptability. While my work at the NGO has sharpened my leadership and crisis management skills, my certifications in **Global Economics** and **Digital Marketing** have provided me with a unique perspective on how modern diplomacy is intertwined with technology and trade. I believe that a Master's degree in IR from Russia will provide me with the academic rigor needed to analyze complex geopolitical issues and contribute to international peace and cooperation.

My background in **Web Development** and **MS Word** also ensures that I can handle data-driven research and modern communication tools effectively. I am a disciplined individual, as evidenced by my commitment to **Swimming** and continuous learning.

I am eager to bring my practical experience from Bangladesh to the diverse academic environment in Russia and evolve as a global professional in the field of International Relations.

Sincerely, Robiul Hossen
